At our booth, visitors will be able to enjoy an eclectic selection of pieces and a thematic exhibition. *Mankishi. Visions of the Songye Sculptures*, which pays tribute to the expressive power of the power figures or *mankishi* of the Songye people of the Democratic Republic of Congo. The exhibition is structured around a selection of twenty sculptures of various styles, distinguished by their small size, and is completed by a series of charcoal portraits of the figures by Elena Martínez-Jacquet.
